PLEASE SUPPORT THE LAUDERDALE-BY-THE-SEA BIOROCK CORAL REEF RESTORATION PROJECT

The Lauderdale-By-The-Sea Biorock Coral Reef Restoration Project film was presented to the Lauderdale-By-The-Sea Town Council On December 10 2013. You can see the remarkable story here:

http://www.youtube.com/watch?v=i_bBbqHp_bU

Already the project has most Southeast Florida coral species growing well, with the highest live coral cover to be seen, and increasing numbers of fishes and divers.

2014 is the time to greatly expand and improve the project using a novel technology, powering it from shore via a directionally drilled underground cable. This will allow the project to greatly expand.

Please support the work that has been done by Vone Research and Global Coral Reef Alliance volunteers and help us raise funding needed to maintain and greatly improve it. Please donate at the PayPal Button on the bottom of the GCRA home page: www.globalcoral.org
